

A health study for oil spill clean-up workers and volunteers

Biomedical Clinic Exam Substance Abuse Module

The following questions are about recreational drug use. We know this information is personal, but please remember that your answers will be kept confidential. You do not have to answer any questions that you do not want to answer. However, the information you provide will help us to understand your health and how oil spills affect health, including mental health. After you finish answering these questions, clinic staff *WILL NOT* be able to see your answers.

1. Have you ever used any of the following? Please check all that apply.
